**Defence Minister Rajnath Singh  
launches training app for NCC cadets**

## ADVERSITY to ADAPTABILITY

Dear Cadets,

It is that time of the year where we look back to the year spent and welcome the coming New Year. While this year may feel different, yet it is a year of global importance & significance, which has given this generation innumerable different experiences never encountered before.

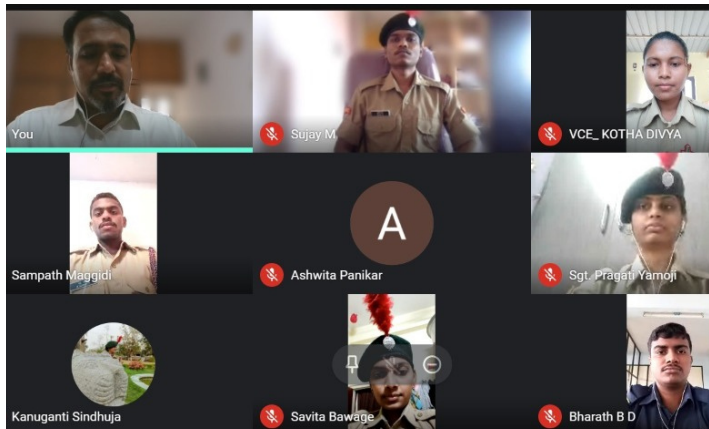

However, let us recount our memories and remember 2020 for the right reasons....In the midst of these challenges, we had new Heroes emerging from all sectors – COVID Warriors across the spectrum : Medical fraternity, civil support forces, Swach Bharath karamcharis, and many many more.....regular citizens of this great Nation who rose to the need of the situational circumstances.

Learning never stopped, in fact we witnessed emergence of new ways of reskilling: Online school & college education, Bi-weekly webinars, online employability training and skill development to meet personal and professional demands.

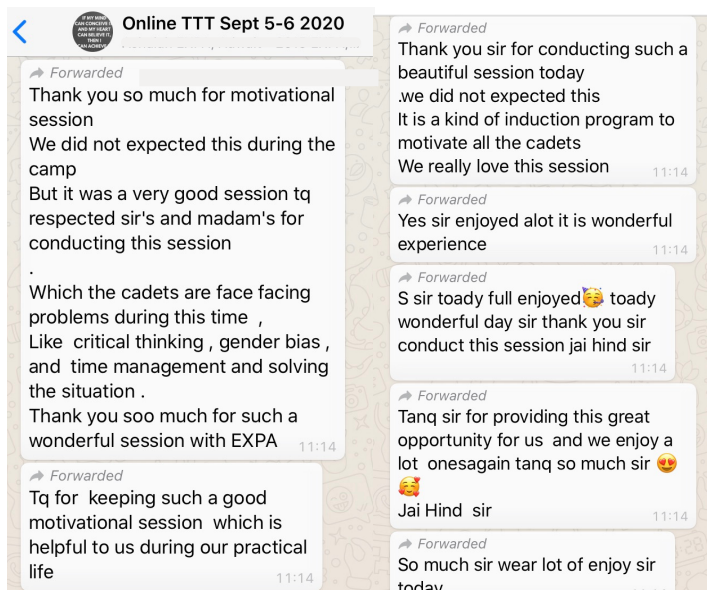

It is so humbling to experience the way nature has its own way of recouping and kudos to the human spirit for survival & adaptability. The adage 'survival of the fittest', now has new meaning for sure!

# An eventful year

**Come, let us revisit our journey at CADET PROGRAM for the year 2020.**

## CADET Online Training & Feedback

**Online Training:** A peek at our online training, which was initially a welcome challenge especially during the pandemic to move from in-camp to online, as the modules had to be re-modelled to suit the online format, making it shorter and engaging for virtual interactions. We currently have varied formats of 2-day & 1-day training programs which are customized for the needs of the NCC Cadets.

This also had our Cadets adapt to the use of online tools, dependency on internet data, learn the use of apps, social media and virtual interactions to cope up with situation. EXPA CADET program is grateful for all the positive feedback we have received from the Cadets and Officers. We shall continue to move forward in the coming year with renewed focus, energy and motivation to deliver consistent value to the NCC.

We thank DG NCC & staff for all the support, guidance & encouragement.

**Webinars:** Necessity is the mother of all inventions.... We started an innovative journey to continue to engage with our NCC Cadets, help share life-skills, knowledge and exposure to employability skills. Our fortnightly webinars, since its inception in May 2020, has had over 15,000 plus Cadets who attended many of these sessions and had the opportunity to interact with the speakers who came from credible experience and expertise.
