Dear cadet

The last couple of weeks has been an exciting journey at The CADET Program. We had two debuts in the month of May'2020:

Our very first **Newsletter & CADET Diaries: Webinar Series**

The webinars have been a resounding success with over 5,200 participants in these events.

These events also brought out various facets of our CADET Trainers too...organisation skills, oratory skills, design skills, overcoming their own apprehensions and limitations with regard to ability, competence and execution skills. We appreciate all the efforts and kudos to all who contributed to making these initiatives a success.

We are overwhelmed and grateful for the enthusiastic participation of all of you during the webinars, which made it interactive and enhanced the value of topic being discussed by our esteemed panelists.
